Treat symptomatically.

Section 5: FIRE FIGHTING MEASURES

5.1. Extinguishing media

Suitable extinguishing media

Dry powder, carbon dioxide, sand.

Unsuitable extinguishing media

Avoid using water to extinguish the fire, as water may cause the target powder to fly, increasing the risk of explosion.

5.2. Special hazards arising from the substance or mixture

The target itself is generally non - flammable. However, under high - temperature or specific conditions, its powder may form an explosive mixture with air.

It may react violently with strong oxidants.

5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective suit. Use personal protective equipment as required.

Section 6: ACCIDENTAL RELEASE MEASURES**6.1. Personal precautions, protective equipment and emergency procedures****Personal precautions**

Methods for containment Not applicable to massive product.

Methods for cleaning up Not applicable to massive product.

6.4. Reference to other sections

See Section 12: ECOLOGICAL INFORMATION.

Section 7: HANDLING AND STORAGE**7.1. Handling Precautions**

Operations should be carried out in a well - ventilated area. It is best to use local exhaust ventilation equipment.

Avoid generating dust. Operators should wear self - absorbing filter dust masks, chemical safety goggles, rubber gloves and other protective equipment.

Handle with care during operation to prevent damage to the target and generation of powder.

Keep away from fire sources and heat sources. Smoking is strictly prohibited in the workplace.

7.2. Storage Precautions

Store in a cool, dry and well - ventilated warehouse.

Keep away from fire and heat sources.

Should be stored separately from oxidants and food chemicals. Do not store them together.

The storage area should be equipped with suitable materials to contain leaks.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Exposure controls

Engineering Controls	Use local exhaust ventilation to control dust levels.
Personal protective equipment	
Eye/face protection	When airborne particles may be present, appropriate eye protection is recommended. For example, tight-fitting goggles, foam-lined safety glasses or other protective equipment that shield the eyes from particles.
Skin and body protection	Wear fire/flame resistant/retardant clothing. Cut-resistant gloves and/or protective clothing may be appropriate when sharp surfaces are present.
Respiratory protection	When the dust concentration in the air exceeds the standard, wear a self - absorbing filter dust mask. In case of emergency rescue or evacuation, wear an air respirator.
Other protection	Smoking, eating and drinking are prohibited in the workplace. Take a shower and change clothes after work. Maintain good hygiene habits.
